

Pranesh Nallamuthu

IMDS Engineer | Materials Compliance Specialist

Marsaskala, Malta | +356 99353934 | prannalla@gmail.com

EU Work Permit Holder | Available for 100% Remote Engagement | Notice Period: 2 Weeks

PROFESSIONAL SUMMARY

IMDS Engineer and Materials Compliance Specialist with 3+ years of hands-on experience in automotive material data submissions, supplier compliance workflows, and regulatory reporting. Currently at Methode Electronics as IMDS Engineer (since August 2023), with additional independent IMDS consulting for a confidential Tier 1 automotive supplier in Malta. Certified through IMDS Professional (official DXC Technology partner). Deep practical knowledge of REACH, RoHS, ELV, SCIP, and GADSL. Fluent in English. Fully remote-ready with EU work permit.

CORE COMPETENCIES

- IMDS: Material data submission & validation | Where Used Analysis | BOM-to-IMDS mapping | MDS creation & review | IMDS A2 Optimizer | Release 14 (IMDS 6125)
- Regulations: REACH (SVHC) | RoHS | ELV Directive | SCIP Database | GADSL | Recommendation 025 (Recyclates) | Conflict Minerals (CMRT)
- Data & Tools: Microsoft Excel (Advanced - XLOOKUP, Power Query, VBA) | PDMLink PLM | SAP | PTC Creo 7 | Zoho Suite | Python (data automation)
- Process: Supplier declaration management | Compliance report generation | Rejection troubleshooting | Customer OEM compliance specifications

PROFESSIONAL EXPERIENCE

IMDS Engineer

Methode Electronics | Birkirkara, Malta | August 2022 - Present

Joined as IMDS Coordinator and Design Assistant (Aug 2022 - Jul 2023); promoted to IMDS Engineer (Aug 2023 - Present)

- Manage end-to-end IMDS submissions for automotive components across multiple customer OEMs
- Perform Where Used Analysis to track material data across BOMs and product lines
- Coordinate with Tier 1 and Tier 2 suppliers to collect and validate material declarations (REACH, RoHS, ELV, SCIP, GADSL)
- Validate and troubleshoot IMDS rejections; liaise directly with customer IMDS teams
- Maintain compliance documentation and generate regulatory reports for customer audits
- Provide internal training to engineering and supply chain teams on IMDS processes
- Supported design team with component design tasks and technical drawings (PTC Creo 7) during dual role phase

Independent IMDS Consultant

Confidential Tier 1 Automotive Supplier | Malta | 2024 - Present

- Provide independent IMDS consulting on a retained basis to a Tier 1 automotive supplier in Malta (NDA in place)
- Manage IMDS data submissions, Where Used Analysis, and supplier follow-ups for a client with complex multi-OEM supply chains
- Advise on REACH/RoHS/SCIP compliance workflows and supplier declaration process improvements

Project Engineering Trainee

BT Commercial - RefPro Refrigeration | Birkirkara, Malta | July 2020 - January 2021

- Coordinated HVAC project activities including technical drawings and Bills of Materials
- Designed and programmed plastic injection moulds for new product launches
- Performed CAD/CAM programming and CNC machining (SAMAG TFZ 2)

EDUCATION

Bachelor of Engineering (Hons) in Mechanical Engineering

University of Malta | 2016 - 2020
