Recruitment Team
Busch Vacuum Solutions
Maulburg, Baden-Württemberg, Germany

Re: Material & Trade Compliance Expert (m/w/d)

Dear Hiring Manager,

I am writing to apply for the Material & Trade Compliance Expert position at Busch Vacuum Solutions in Maulburg. My background in materials compliance, supplier documentation, and regulatory frameworks such as REACH and RoHS makes me well-suited to support your team in ensuring full material and trade compliance across your supply chain.

In my roles at Methode Electronics and REACH Talent Consulting, I have built solid experience in verifying that materials and components comply with relevant regulations including REACH, RoHS, and conflict mineral requirements. I have reviewed and validated material declarations and conformity evidence from suppliers, communicated clear compliance requirements to supply chain partners, and supported supplier onboarding from a compliance perspective. My work has consistently involved close collaboration with product compliance, procurement, and engineering teams to ensure seamless regulatory alignment - exactly the cross-functional approach described in your role.

I understand that the position also encompasses trade compliance elements including origin and customs-relevant material data. While my primary expertise lies in material compliance, I have developed a working familiarity with supply

chain data flows relevant to trade compliance and am committed to rapidly expanding this knowledge within your organisation.

Busch Vacuum Solutions' reputation as a world-leading manufacturer of vacuum pumps and systems, operating across diverse industries globally, represents an exciting environment in which to apply and grow my compliance expertise. I am open to relocating to Maulburg and am enthusiastic about contributing to your compliance function.

I look forward to the opportunity to discuss my application in more detail. Thank you for your time and consideration.

Yours sincerely,

Pranesh Nallamuthu
