Recruitment Team
Stoneridge Electronic Systems
Tallinn, Estonia

Re: IMDS Specialist - JR102169

Dear Hiring Manager,

I am writing to express my strong interest in the IMDS Specialist position (JR102169) at Stoneridge Electronic Systems. With over four years of hands-on experience as an IMDS specialist and materials compliance professional in the automotive supply chain, I am confident that my technical background aligns precisely with the requirements of this role.

Throughout my career at Methode Electronics and REACH Talent Consulting, I have developed deep expertise in creating, validating, and submitting IMDS records for components and assemblies across Tier-1 and Tier-2 automotive supply chains. My daily work has involved reviewing supplier IMDS data, resolving data gaps and inconsistencies, and ensuring full compliance with RoHS, REACH (including SVHC and SCIP), ELV, GADSL, and customer-specific OEM requirements. I have acted as the primary contact between suppliers, procurement teams, project engineers, and OEM customers on all matters relating to IMDS and environmental compliance - exactly the cross-functional coordination role described in your job specification.

I am highly proficient in BOM-based material data management and experienced in supporting PPAP activities by ensuring material data sheets are prepared and

validated for customer submissions. My analytical approach, attention to detail, and commitment to regulatory accuracy have consistently enabled on-time compliance delivery across complex, multi-supplier projects.

Stoneridge's position as a leading Tier-1 supplier of highly engineered electronic systems to global OEMs makes this an exciting opportunity to apply my specialist IMDS knowledge at scale. I am fully committed to contributing to your compliance team in Tallinn and am open to relocation.

I would welcome the opportunity to discuss how my experience can support your IMDS and environmental compliance programmes. Thank you for your consideration.

Yours sincerely,

Pranesh Nallamuthu
