Open to relocation to Germany | EU Work Permit Holder | Malta Resident

Professional Summary

Mechanical Engineer with 4 years of hands-on experience in automotive materials

compliance, IMDS database management, and supplier coordination. Specialist in

REACH, RoHS, and ELV directive compliance for automotive sensor components.

Led 200+ component certifications at Methode Electronics Malta, reducing certification turnaround time by 25%. IMDS Advanced Certified. Experience submitting to major OEMs including Ferrari, VW Group, and PACCAR.

EU-educated engineer (degree anabin-verified as Bachelor 4j equivalent in Germany). Currently based in Malta (EU resident), relocating to Germany.

Core Competencies

- IMDS Advanced Certified | REACH | RoHS | ELV | ISO Quality Systems
- PTC Creo 7 | Enovia 3DEXperience | PDMLink | AutoCAD | SolidWorks
- SAP | Microsoft Dynamics AX | Zoho Suite | Python | Advanced Excel
- Supplier Coordination | BOM Validation | Technical Documentation
- Project Management | Stakeholder Management | Cross-functional Leadership

Professional Experience

Materials Compliance and IMDS Engineer

Methode Electronics Malta Ltd. | Birkirkara, Malta | September 2023 - Present

- Manage end-to-end compliance certification projects for automotive sensor components, coordinating engineering teams, suppliers, and OEM customers to meet REACH, RoHS, ELV regulatory deadlines
- Lead supplier coordination for 200+ component certifications, negotiating timelines and resolving technical documentation issues to maintain schedules
- Developed and track project KPIs measuring certification progress, implementing improvements that reduced turnaround time by 25%
- Extract and analyse technical data from PDMLink PLM databases using part numbers and BOMs to support certification workflows
- Collaborate with customer engineering teams across 8 major OEM clients (Ferrari, VW Group, PACCAR) to address certification rejections
- Maintain IMDS databases ensuring accuracy and regulatory compliance for all material declarations
- Generate monthly KPI reports for management tracking compliance metrics

Design Assistant and IMDS Co-Coordinator - Product Development

Methode Electronics Malta Ltd. | Birkirkara, Malta | August 2022 - September 2023

- Drafted automotive component assemblies and CAD models using Creo 3D
- Managed technical documentation per customer specifications and functional safety requirements
- Coordinated with Supplier Development team to generate and validate IMDS data for new component introductions
- Conducted due diligence on IMDS data and created compliance reports from BOM
- Utilised PLM system 3DEXperience Enovia (Dassault Systemes) for design change management
- Assisted in resolving field problems related to regulatory compliance

CAD/CAM Engineer - New Moulds

Playmobil Malta Ltd. | Hal Far, Malta | December 2020 - July 2022

- Planned and prioritised mould development projects using SAP
- Designed and programmed 12 plastic injection moulds for new product launches
- Managed concurrent mould projects balancing technical problem-solving with resource allocation and timeline management
- Performed CAD/CAM programming and CNC machining (SAMAG TFZ 2)
- Conducted mould evaluations and troubleshooting

Project Engineering Trainee

BT Commercial - RefPro Refrigeration | Birkirkara, Malta | July 2020 - January 2021

- Supported project coordination for HVAC and refrigeration installations
- Prepared technical drawings and Bills of Materials for project execution
- Coordinated with suppliers on material availability and delivery

Manufacturing Technician

Foster Clark Products Limited | San Gwann, Malta | December 2019 - July 2020

- Conducted wear analysis using Fusion 360 CAD and FEM
- Supported electrical and mechanical overhauls and machinery installations
- Analysed production line efficiency and supported waste reduction initiatives

Engineering Intern

Actavis Malta Ltd. (now Accord Healthcare) | Bulebel, Malta | June 2016 - September 2016

- Updated AutoCAD drawings for pharmaceutical facility
- Coordinated electrical and mechanical drawings for production line installations

Education

Bachelor of Science in Mechanical Engineering

Vytautas Magnus University (VDU), Kaunas, Lithuania | August 2014 - June 2019

Formerly: Aleksandras Stulginskis University

Degree recognised in Germany: anabin verified equivalent to Bachelor 4j

Field: Mechanical Engineering (Zemes ukio mechanikos inžinerija / Inžinierius)

ERASMUS Exchange - Mechanical Engineering

Lulea University of Technology, Lulea, Sweden | August 2015 - January 2016

Postgraduate Program - Hybrid Electric Vehicle Design and Analysis

Skill-Lync, Chennai, India | February 2022 - May 2024

Advanced Specialisation in Engineering, Manufacturing and Construction

Certifications

- ****IMDS Advanced Certification**** - Official Exclusive Training (IMDS Basics 6120,

Advanced 6121, Release 14 6125) | February 2023

- ****Exclusive Material Compliance Training**** - Methode Electronics | September 2024
- ****Compliance Management System**** - MSME Technology Development Centre,

Ministry of MSME, Government of India | October 2024

- ****Creo 7 PTC**** - Dassault Systemes PLM Enovia 3DExperience Certificate
- ****ECHA REACH IT Advanced User****
- ****Certificate in IMDS ELV CDX****

Languages

- English: Fluent (C1)
- Tamil: Native
- German: Beginner (A1 - actively learning)
- Lithuanian: Basic (A2)
- Swedish: Basic (A1)
- Maltese: Basic (A1)

Additional

- EU resident (Malta - Long Term Residence application in progress)
- Degree anabin-verified as equivalent to German Bachelor 4j (no ZAB needed)
- Available for immediate start upon offer
- Open to travel for supplier visits and project coordination
- Valid Malta work permit
