PROFESSIONAL SUMMARY

IMDS & Materials Compliance Specialist with 5+ years of hands-on experience managing end-to-end IMDS submissions, BOM-level material data validation, supplier compliance coordination, and regulatory reporting across the automotive supply chain. Certified in IMDS Advanced (Courses 6120, 6121, 6125) by DXC Technology — the official IMDS Steering Committee training provider. Deep expertise in REACH, RoHS, ELV, SCIP, GADSL, and Recommendation 025 (recyclates). Proven track record working with global OEM clients including Ferrari, VW Group, and PACCAR. Experienced in consulting and client-facing training delivery. Fluent English. Fully remote-ready.

CORE COMPETENCIES

IMDS Platform: Material data submission & validation • BOM-to-IMDS mapping • MDS creation & review • IMDS A2 Optimizer • Where Used Analysis • Release 14 (Course 6125) • CDX

Regulations: REACH (SVHC) • RoHS • ELV Directive • SCIP Database • GADSL • Recommendation 025 (Recyclates) • Conflict Minerals (CMRT)

Data & Tools: Microsoft Excel (Advanced — XLOOKUP, Power Query, VBA) • PDMLink PLM • SAP • PTC Creo 7 • Python (automation)

Process Skills: Supplier declaration management • Compliance report generation • IMDS rejection troubleshooting • OEM compliance specifications • Client-facing training delivery

PROFESSIONAL EXPERIENCE

IMDS & Materials Compliance Specialist Jan 2021 – Present
REACH Talent Consulting • Malta (Remote)

Manage and submit material data declarations in IMDS for full Bills of Materials (BOM) across 100+ active part numbers, ensuring compliance with ELV, REACH, RoHS, and SCIP requirements

Perform **Where Used Analysis** in IMDS to assess downstream regulatory impact of substance changes and material updates across customer product lines

Validate incoming supplier MDS submissions for accuracy, completeness, and regulatory threshold compliance (GADSL, Annex II/XIV/XVII); resolve rejections with targeted supplier guidance

Utilise **IMDS A2 Optimizer** to streamline batch submission workflows, reducing certification turnaround time by 25%

Extract and cross-reference BOM data from **PDMLink PLM** to support IMDS certification workflows and part number traceability

Coordinate with engineering and quality teams at 8 major OEM clients (**Ferrari, VW Group, PACCAR**) to resolve IMDS certification rejections and compliance escalations

Maintain IMDS database integrity through regular audits of material declarations for accuracy, version control, and regulatory compliance

Generate monthly KPI compliance reports tracking SVHC substance status, certification rates, and open action items

Conduct **IMDS training sessions** for supplier onboarding, covering submission requirements, GADSL substance thresholds, and **Recommendation 025** recycle obligations

Develop internal compliance tracking tools using Excel (Power Query, VBA) and Python for automated data extraction and reporting

Stay current with IMDS Release 14 updates, ECHA SVHC candidate list changes, and evolving ELV/SCIP obligations — proactively communicating regulatory impact to clients

Mechanical Design Engineer (Junior) 2019 – 2020
Previous Role

Prepared technical drawings and 3D models using PTC Creo 7 and SolidWorks for production line installations

Supported BOM creation and component documentation for engineering projects

EDUCATION

Bachelor of Science — Mechanical Engineering Aug 2014 – Jun 2019
Vytautas Magnus University (VDU) • Kaunas, Lithuania

Relevant modules: Materials Science, Environmental Engineering, Quality Systems, CAD/CAM, Manufacturing Processes

Degree anabin-verified as equivalent to EU Bachelor (4 years)

CERTIFICATIONS

IMDS Advanced Certification (Courses 6120 Basics, 6121 Advanced, 6125 Release 14) — DXC Technology / IMDS Steering Committee • Feb 2023

Exclusive Material Compliance Training — Methode Electronics • Sep 2024 • Focus: REACH SVHC, RoHS substance thresholds, automotive material declaration best practices

Compliance Management System Certification — MSME Technology Development Centre, Ministry of MSME, Government of India • Oct 2024

CORE COMPETENCIES

IMDS | REACH | RoHS | ELV | SCIP | GADSL | Recommendation 025

IMDS A2 Optimizer | PDMLink PLM | SAP | PTC Creo 7

MS Excel Advanced (Power Query, VBA, XLOOKUP) | Python

Supplier Declaration Management | BOM Analysis | OEM Specifications

Remote Collaboration | Technical Training | Client Consulting

English (Fluent) | Tamil / Hindi (Native)
